12 June 2024 - Sungrow Roadshow hosted by IBC SOLAR

Sungrow Roadshow hosted by IBC SOLAR

[Register here →](#)

Date: 12 June 2024

Start Time: 13:30 - 16:30

Location: InsideOut Campus, Lenchen Ave, Centurion, 0157

You can expect to learn about:

- ✓ The technical specifications of Sungrow **single phase energy solution**;
- ✓ The technical specifications of Sungrow **3 phase energy solution** for both residential and C&I
- ✓ The installation process and **hands-on experience**;
- ✓ The powerful functionalities of the iSolarCloud App, designed to streamline your solar projects.

19 June 2024 - Webinar - Meteocontrol VCOM Basics

Webinar - Meteocontrol VCOM Basics

[Register here →](#)

Date: 19 June 2024

Start Time: 09:30

Product Training Presenting Meteocontrol VCOM Basics presented by Alton Mbedzi

- ✓ How to fill in the registration form for your VCOM site
- ✓ How to select a Bluelog for your project
- ✓ Types of licenses

IBC SOLAR Technical Services

IBC SOLAR technical services enables you to develop and implement residential, commercial- and utility-scale power plants that deliver superior system-level performance. We enable you to understand, to plan and to execute projects without having to hire new employees. We ensure high quality throughout all project stages.

[Order Now!](#)

TECHNICAL SUPPORT

Enquire directly with the team:

Email: service@ibc-solar.co.za

Cape Town:

Alton Mbedzi +27(0)64 756 9253

Gontse Mangwegape +27(0)71 330 1111

Molebatsi Jama +27(0)71 330 1244

Johannesburg:

Wessel Maritz +27(0)82 870 9037

Project management and installation support

All on site services will have additional costs to be considered (Values in ZAR ex VAT)

- Call out fee (30km included)		R950 ex VAT	R 1,092.50 incl VAT
- Travel fees	R7.5/km		
- Toll fee	If applicable		
- Accommodation fees	Upon agreement		

All telephone related services do have the following fees

- Startup fee (including 30min)		R 450 ex VAT	R 517.50 incl VAT
---------------------------------	--	--------------	-------------------

Commissioning support and fault finding

The commissioning is the last step of your installation. It's your first time using a new product or you just need an **extra pair of hands** finding a fault on site. We can support you via telephone or onsite to get the system successfully connected. We check your wiring, make sure everything is correctly protected and programmed. We make sure all products run seamless before we leave the site. (Values in ZAR ex VAT)

✓ Telephone - Take care package		R 850 ex VAT	R 977.50 incl VAT
● (Only on purchase with a system)			
✓ Telephone support		R 450/30 min ex VAT	R 517.50/30 min incl VAT
● (Make an appointment and we dedicate the time to you!)			
✓ On Site - Half day take care package		R 2950 ex VAT	R 3,392.50 incl VAT
● (max. 4h support - Only on purchase with a system)			
✓ On-site support		R 750/h ex VAT	R 862.50/h incl VAT
● (Appointments to be coordinated 3-5days in advance)			

DESIGN SERVICES

Single line diagram

The first design step is an SLD (Single Line Diagram). This will show you a connection plan for your installation. An easy and quick overview.

✓ Residential single line diagram	R 850 ex VAT	R 977.50 incl VAT
✓ Small commercial single line diagram	R 950 ex VAT	R 1,092.50 incl VAT
● battery integration	R 550 ex VAT	R 632.50 incl VAT
✓ Medium commercial single line diagram	R 1450 ex VAT	R 1,667.50 incl VAT
● battery integration	R 550 ex VAT	R 402.50 incl VAT

Design with our PVManager software

A PVManager design and engineering report for bankable yield calculations. The report entails module layout, string connection plans, mounting structure installation plan, shading simulation, AC connection plan and a detailed part list (Values in ZAR ex VAT).

All of the following include a SLD

✓ Residential PVManager design (up to 25kW)	R 1450 ex VAT	R 1,667.50 incl VAT
✓ Small commercial PVManager design (up to 200kW)	R 2250 ex VAT	R 2,587.50 incl VAT
✓ Medium commercial PVManager design (200 – 1.000kW)	R 3250 ex VAT	R 3,737.50 incl VAT
✓ Large commercial/Utility scale > 1.000kW PVManager design (please inquire for any of the listed services)
